Photographic Science and Engineering

Volume 19, Numbers 1–6

January/February **(1)**	1–68
March/April **(2)**	69–156
May/June **(3)**	157–204
July/August **(4)**	205–252
September/October **(5)**	253–304
November/December **(6)**	305–378

TITLE INDEX

Analysis of Photolytic Silver on and Within Cubic Silver Microcrystals: Core-Shell Emulsion Grains
David J. Locker, 160

Anomalous Concentration Effect: An Inverse Relationship Between the Rate of Development and Developer Concentrations of Some *p*-Phenyldiamines
D. Neuberger and H. C. Roberts, 327

Changes of Silver Halide Energy Levels with Temperature and Halide Composition
Chester R. Berry, 93

Chemical Sensitization Using Hydrogen Gas. Part II. With Other Types of Chemical Sensitization
T. A. Babcock, P. M. Ferguson, W. C. Lewis, and T. H. James, 211

Comparison of the Spectral Sensitization of Surface and Internally Sensitized Core/Shell Octahedral Silver Bromide Emulsions
F. J. Evans and P. B. Gilman, Jr., 333

Deposition and Scavenging During Electroded Cascade Development
O. G. Houser and R. S. Menchel, 239

Desensitization by Efficient Spectral Sensitizers
J. M. Simson and W. S. Gaugh, 339

Distribution of Interstitial Silver Ions in Silver Bromide Photographic Microcrystals
Shunji Takada, 214

Dye Sensitized Photolysis of Diazonium Compounds: Part V
Toshihiro Yamase, Tsuneo Ikawa, Hiroshi Kokado, and Eiichi Inoue, 57

Efficiency of Spectral Sensitization of a Silver Bromide Emulsion as a Function of Environment
P. M. Ferguson, T. A. Babcock, and T. H. James, 266

Electric Field Enhancement in the Magnetic Brush Developer
L. B. Schein, 3

Electrochemical Investigation of Photographically Sensitive Anodically Formed AgBr Layers
B. Billings, D. P. Kennedy, M. Wright, and A. Hoffman, 279

ESR Study of the Mechanism and Kinetics of Photographic Development in Hydroquinone Developers
Heinz J. Hefter, 179

Examination of Ferri- and Ferrocyanide from Photographic Processing Wastes by Ion-Exchange Resin
H. Iwano, I. Shimamura, and A. Abe, 219

Function of Gold in Sulfur-Plus-Gold Sensitization
J. M. Harbison and J. F. Hamilton, 322

High-Definition Color Films for Terrain Photography
James S. Moser and Norman L. Fritz, 243

Image Quality Criterion for the Identification of Faces
G. T. Yonemura, 223

Influence of Dye Energy Levels on the Spectrally Sensitized Luminescence from Silver Bromoiodide
Thomas L. Penner and P. B. Gilman, Jr., 102

In Memoriam
R. K. Blake, 305
Fujisawa, Shin, 159

Interpretation of the Protonation Mechanism of Cyanine Dyes by Frontier Theory
Hiroshi Hada and Chika Honda, 363

Investigation of the Formation of Simple and Mixed Complexes in the Silver-Phenylmercaptotetrazolate-Halide System
Zoilo C. H. Tan, 17

Investigation of the Validity of the Reciprocity Law for High-Intensity X-Ray Exposures
R. A. Armistead, 167

Ion Implantation in Photographic Systems
J. E. Keevert, T. M. Kelly, J. O. Helling, and J. A. Merrigan, 22

Irreversible Coloration of Some Benzospiran Compounds in Poly(vinyl Chloride) Matrix Due to the Multiple Exposures to Electron and Light
Shin Ohno, 287

Letters to the Editor
Jack M. Ferrier, 65
R. C. Nelson, 66
Boris Levy, 66

Light-Induced ESR Spectra of Dyes Adsorbed by AgBr Emulsion Grains. X
Tadaaki Tani, 356

Location of Sulfide and Photographic Sensitivity Sites in Internally S + Au-sensitized Core/Shell Grains
D. M. Sturmer and L. N. Blackburn, 352

Long Wavelength Sensitivity and Spectral Sensitization of AgBr Sheet Crystals
V. I. Saunders, 71

Luminescence of Silver Bromide Emulsions at 77 K
A. J. B. Codling, 44

Microscopic Theory of Magnetic Brush Development
L. B. Schein, 255

Moiré Spectra Generated by Superposition of Quadratic and Rhombic Screen Patterns
F. Bestenreiner and J. Freund, 142
New Azo Blue Derivatives as Spectral Sensitizers
John A. Smerillo and Stanley D. Koch, 55
Novel Form of Chemical Sensitization Using Hydrogen Gas
T. A. Babcock, P. M. Ferguson, W. C. Lewis, and T. H. James, 49
On the Mechanism of Spectral Sensitization Rhodamin B Sensitized Electron Transfer to Zinc Oxide
Ewald Daltrozzo and Helmut Tributsch, 308
On the Spectral Sensitization of Negative and Positive Photoresists
T. A. Shankoff and A. M. Trozzolo, 173
Photoconductivity of Microcrystalline Cubic Silver Bromide Emulsions
J. Beutel, 95
Photoresponse of Evaporated Silver Bromide Layers Exposed in Vacuum
B. Mednikarov and J. Malinowski, 163
Properties of Silver Clusters in AgBr Surface Sites
R. C. Baetzold, 11
Properties of the Titanium(III)-DTPA Developer
Harry J. Price, 283
Quantum Efficiency of Photohole Generation in Dye-Sensitized Polyvinylcarbazole
Mitsusuke Ikeda, Hisanao Sato, Kazuhisa Morimoto, and Yoshinubi Murakami, 60
Relation of Photographic Effects of Stabilizers to Their Electronic and Molecular Structures
Tadaaki Tani, 114
Relationships Between Kinetics of Development of a Silver Halide Photographic Material and its Quantum Efficiency
M. R. V. Sahyun, 38
Remarks of Thomas J. Dufficy, National Association of Photographic Manufacturers, Before SPSE
Thomas J. Dufficy, 175
RMS Granularity: Determination of Just-Noticeable Differences
Daan Zuick and Daniel L. Brothers, Jr., 235
Silver Particle Growth Analysis from Development of Extremely Fine Grains
D. C. Skillman, 28
Single-Grain Electrochemical Model of Photographic Development
E. R. Brown and L. K. J. Tong, 314
Some Aspects of Fixation and Washing
A. Green, 124
Some Holographic Effects Caused by the Presence of Silver Halide Solvent in the Developer
Howard W. Smith and Charles A. Callari, Jr., 130
Spectral Sensitization and Calculated Energy Levels: Core/Shell Emulsions
D. M. Sturmer and W. S. Gaugh, 344
Spectral Sensitization and Desensitization of Photocurrents in PbI_2
Boris Levy and C. R. Dickson, 79
Spectral Sensitization by Sterically Hindered Chromosphores
D. M. Sturmer and W. S. Gaugh, 273
Spectrally Sensitized Injection of Holes in Silver Bromide
S. Getzov and J. Malinowski, 184
Surface Structure and Reactivity of AgBr Dodecahedra
Chester R. Berry, 171
Thermally Developable Image-Sensing in Metal-Chalcogenide Glasses
Isamu Shimizu, Horoshi Kokado, and Eiichi, Inoue, 139
Use of the Luminescent Properties of Adsorbed Sensitizing Dyes to Establish the Energy Levels of Dyes Relative to Those of Silver Bromide
L. F. Costa and P. B. Gilman, Jr., 207
Variation of Grain Density with Temperature in Nuclear Emulsions
Mahendra Singh and A. P. Sharma, 146
Visual Factors in Photographic Detection, Recognition, and Resolution Tasks. Part I—Resolution
W. N. Charman, 228

AUTHOR INDEX

Abe, A. *See* Iwano, et al.
Armistead, R. A.
An Investigation of the Validity of the Reciprocity Law for High-Intensity X-Ray Exposures, 167
Babcock, T. A., Ferguson, P. M., Lewis, W. C., and James, T. H.
A Novel Form of Chemical Sensitization Using Hydrogen Gas, 49
——Chemical Sensitization Using Hydrogen Gas. Part II. With Other types of Chemical Sensitization, 211
See Ferguson, et al.
Baetzold, R. C.
Properties of Silver Clusters in AgBr Surface Sites, 11
